*Malta is just south of Sicily, so the average temperatures in February are in the low 60's during the day and 50's in the evening – ideal for sightseeing and R&R, surrounded by the Mediterranean, in the middle of our New England winter! The country has a rich history, with a succession of ruling powers, including the Phoenicians, Romans, Moors, Normans, Aragons, Habsburg Spain, French, and finally the British, who all left their influence on the three islands. Malta is a favorite tourist destination, due to its warm Mediterranean climate, numerous recreational areas, and varied architectural and historical monuments, including seven UNESCO World Heritage Sites, including some of the oldest free-standing structures in the world.
